

SAMPLE DATA SHEET

1. Submitter : Name _____
Address _____
e-mail _____ Telephone _____
Telefax _____
2. Institute: _____
- 3 VAT No.: _____
4. ¹⁴C Technique:
AMS standard (3 - 5 months) _____
note: _____
5. Material (wood, peat, bone, carbonate (marine, fresh water), water,..)
and quantity _____

6. Local sample number
or identification : _____
7. Sampled by : _____
when (Month and year) : _____
8. Sample location name: _____
Geogr. Lat. and Long.: _____
9. Sample depth (below surface (m)): _____
10. Sampling conditions: (give profile sketch with description)
vegetation at surface, root penetration,
carbonate-rich layers, leaching, humic acids, etc
11. Relation to other samples
(single-sample or part of profile or excavation series): _____

12. Is contamination expected?: _____
What kind?: _____

13. Treatment during: _____

and after sampling: _____
(packing, preservation, storage,) _____

14. Research question to be answered by date: _____

15. Estimated age range: _____

16. Literature references on subject: _____

17. Can the dates be published in a Radiocarbon datelist? _____

18. Profilesketch and/or further information:
